## **Workshop 1: Wing Chun: 2-Person Training Drills** 11:00 – 1:00 pm

Wing Chun is a close-quarter martial art well known for its ability to sense the vectors of movement of the attacker, which allows you yield, neutralize, and interrupt their attack.

This workshop is part of a continuing series of the Science and Art of Wing Chun. With over 40 years of experience teaching Wing Chun, Master Leung has streamlined this process of skill development.

## **Workshop 2: “Mindful Placement within Space” Chi Gung Set** 1:15 – 3:15 pm

Master Leung has compiled a Chi Gung set that will explore “**Mindful Placement within Space**” based on his own expression of various training sets including principles from Grandmaster Wang Hao Da’s Chi Gung method.

This training method is applicable to all styles of Tai Chi and will also help Martial Artists move in a more coordinated and powerful manner.

## **Workshop 3: *Tai Chi Classics Essay as attributed to Chang San Feng*** 3:30 – 5:30 pm

Master Leung will translate the essay from the original language (Chinese), clarify the key principles hidden in this classic text regarding the practice of Tai Chi, and teach drills on how to practice these core concepts. Legend has it that Chang San Feng is the creator of Tai Chi Chuan.

## **Chinese Buffet Dinner** 6:00 pm

All are invited to join us for a Chinese Buffet Dinner at Canton Buffet (1118 NE 78th St.).

***The concepts and training drills taught by Master Leung will be beneficial to all Martial Artists regardless of their style. These workshops will build a solid foundation for new students, and will help long-time practitioners refine their art.***
